

## **DUNGEON DIGITAL DA1LY w/kidkel69**

Kidkel69, 2018

When preparing for a review a good writer will research the band, songs, projects, web sites, and the such for an over all view of the entire compilation and sound arrangements to convey to the reader why, they too, shall support the artist and buy the record.

While researching my planned review of "EYE OF THE STORM," by professional studio artist's and nationally touring band RED SEA RISING, I was caught up in an ecliptic reality of more then music, but living, breathing emotion and enlightened energy.

EYE OF THE STORM first reminded me of an ALAN PARSON's type project, until I dove deeper into the world of the entourage of websites, collaborations and state of the art studio work that went into the making of Eye of the Storm.

My favorite track on the LP is "Just Bleed," flowing into the corners of your mind , reflecting on your own pains and pleasures, and ups and downs.

A rollercoaster of emotion.

"Walk Beside Me" is a complicated track. You must listen to loud with a good sound system to really grab the intelligence and grace behind the production.

I can't wait until RED SEA RISING members Jeffery Kerr ( Jet Ryder) lead vocals/ Ken Pinkstaff , lead guitar/Jimmy Salazar , rhythm guitars, vocals/ KC Anderson , bass/David Franklin (Lunchbox) drums/Steve Kapeller keyboards/GUNNER, everything and all, fly into the Milwaukee/Chicago area and rock the midwest.

Get it while it's hot! RED SEA RISING..what a strange trip it's been!
