Van Halen is up to something â€” !

This Monday morning the VHND received emails from multiple sources saying that Van Halen was having their gear delivered to the famous ROXY club in Los Angeles that very day, complete with fake palm trees from Dave's house. The band was to shoot a video at the famous L.A. club that day.

Then tonight, this very telling photo surfaced taken at the Roxy, and featuring Van Halen with their manager, Irving Azoff, and Interscope executives. This photo marks the first official confirmation from the band that they have signed with a new record company and are actually about to release a new CD!

In the photo: (L-R) Alex Van Halen, Wolfgang Van Halen, Eddie Van Halen, Jimmy Iovine, Chairman, Interscope Geffen A&M Records, Irving Azoff, Executive Chairman of Live Nation Entertainment and Chairman and CEO of the Front Line Management Group, Steve Berman, Vice Chairman, Interscope Geffen A&M Records, David Lee Roth and Jim Urie, President and CEO, Universal Music Group Distribution. (Photo by Roth's main photographer, Robert Yager).

This photo speaks volumes about a MAJOR ANNOUNCEMENT coming soon â€” !
